**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The purpose of the examiner's amendment was to cancel newly added claims 3-4 so as to place the current application in condition for allowance.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Adam L. Stroud on October 17, 2006.

The application has been amended as follows:

**In the Claims:**

Claims 3-4 have been canceled.

2. Claims 1-2 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Claim 1 is allowable because none of the prior art discloses a method for the self-testing of a reference voltage, characterized in that in a self-test, the values of a function are determined in succession for the reference voltage and for two further test voltages that differ from the reference voltage by only small positive and negative amounts; and if the values of the function for the test voltages differ from the value of

the function for the reference voltage in the same direction, a pass signal is generated, and in the combination as claimed.

Claim 2 is allowable because none of the prior art discloses a circuit arrangement for the self-testing of a reference voltage, characterized in that the input signals to a function generator are the reference voltage and two further test voltages that differ from the reference voltage by only small positive and negative amounts, and the output signals from the function generator are fed to sample & hold circuits, and in that it comprises two comparator circuits for comparing the values of the function for the reference voltage and for respective test voltages, the outputs of the comparator circuits generate a pass signal if the signs of the signals at the comparator circuits are the same, and in the combination as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
